

Restoration of GST Returns data on Portal

Sep 29th, 2024

Please refer to the advisory issued on 24th September, 2024 regarding the archival of return data from the Common Portal after seven years. This data was archived in line with data archival policy. Data archival process was implemented on a monthly basis. Consequently, the return data for July, 2017 and August, 2017 was archived on 01st August and on 01st September respectively.

However, in view of the requests received from the trade due to the difficulties faced, data has been restored back on the portal. We recommend you to download and save the data if needed, as the archival policy shall be implemented again after giving advance information.

Thank you for your cooperation.

Thanks,
Team GSTN
